PROJECTS

Few-Shot Language-Agnostic Keyword Spotting

View Project

Developed a real-time, multilingual keyword spotting system using few-shot learning and Hugging Face models. Built modular services for audio input, transcription, and detection.
Tech Stack: Node.js, Express.js, JavaScript, Hugging Face APIs

Target Trio (Web Game)

View Project

Built a browser-based number game with real-time validation, interactive UI, and multiple difficulty levels.
Tech Stack: HTML, CSS, JavaScript

Personal Portfolio Website

View Project

Designed and developed a responsive portfolio showcasing projects, certifications, and contact information with clean UI and smooth navigation.
Tech Stack: HTML, CSS, JavaScript

Digital Solutions Hub

View Project

Created a responsive landing page for a digital agency, showcasing services in web development, app solutions, and branding.
Tech Stack: Tailwind CSS, HTML

YouTube Frontend Clone

View Project

Developed a static YouTube homepage clone featuring sidebar, search bar, and video thumbnails to showcase frontend skills.
Tech Stack: HTML, CSS, JavaScript
